

Quality Control and Analytical Chemistry Manager

Imanova Limited is recruiting for a Quality Control and Analytical Chemistry Manager to manage the daily activities and resources in the QC laboratories (QC Lab, Microbiology Lab, Isolator Room, Quarantine Store), in an efficient, safe and compliant manner, in order to support operational delivery of Imanova's clinical scanning activities.

Background

A partnership between the Medical Research Council, Imperial College London, King's College London and University College London, Imanova provides a world class medical imaging service to industry and academic clients. Imanova is involved in the discovery and manufacture of radioisotopes, formulation and control of sterile solutions and injection into patients as part of clinical programmes.

The Candidate

The successful candidate will be responsible for:

- managing and leading a multidisciplinary team of highly specialist PET analytical chemists, microbiologist and lab technicians, and ensure they are fully trained and competent for their roles;
- managing the daily activities in the QC laboratories for the delivery of PET products to support clinical demands;
- releasing PET radiopharmaceuticals for human use;
- leading analytical method development for implementation of all new PET radiopharmaceuticals for human use;
- overseeing management of Raw Materials entering the manufacture of clinical batches of radiopharmaceuticals;
- overseeing the environmental monitoring program, in conjunction with the microbiologists.
- identifying and implementing opportunities for continuous improvement in the QC laboratories.
- ensuring the QC laboratories, equipment and Imanova analytical methods are fully functioning and compliant and conform to Imanova standards and the appropriate regulatory standards in the UK.

Specific Experience Skills required:

Candidates must have:

- Minimum BSc. Degree in Analytical Chemistry
- Operational expertise of laboratory equipment
- Knowledge of relevant legislation and regulations
- Strong people management skills
- Good project management skills
- Demonstrated ability to work in a multidisciplinary team and to assimilate a working knowledge of areas outside of their core competency.
- QP qualification (desirable)

Personal Characteristics and other requirements

Candidates must have:

- Excellent verbal and written communication skills
- An ability to work to deadlines and can cope well within a pressurized environment
- A logical approach to problem solving and an attention to detail
- Demonstrated ability to work effectively with integrity and flexibility
- A flexible approach to working hours according to the requirements of the work schedule

Competitive Salary & Benefits

Bonus, Contributory Pension, Private Medical Insurance, Life Assurance & Flexible Benefits options

To apply for this position please forward your CV and a covering letter detailing your relevant experience to Recruitment on Recruitment@Imanova.co.uk
